AI Training: Using AI for Project Charters

Date: 6/20/2024

Time: 11:00 [MST](#)

Location: Virtual

Cost: Free

PDU: 0

The presentation offers a comprehensive overview of how artificial intelligence (AI) can enhance charter creation and project management across various domains. It covers the fundamentals of charter types, including corporate, PMO, and project charters, with a focus on integrating AI to streamline processes. The document also delves into generative AI and prompt engineering, illustrating their applications in creating efficient, AI-driven charters. It presents real-world examples and templates, such as the ASU ET Project Charter, to demonstrate the practical application of AI in project management, thereby setting a new standard for efficiency and effectiveness in organizational projects.
